

Mix & Match Remanufactured Brake Shoe Program

Bendix is pleased to announce an enhancement to our reman brake shoe program. The new program allows you to "Mix & Match" part numbers on your reman brake shoe orders so you can meet new quantity price breaks more easily.

Full pallet quantities of one part number are no longer required; just purchase the quantities of each part number you need to match your inventory demands.

The new Mix & Match quantity break levels for exchange shoes "EX" and brake kits "KT" are:

	Minimum Order Requirement		Discount Off Dnet
	EX	KT	
Level 1	100 shoes	45 kits	5%
Level 2	500 shoes	225 kits	7.5%
Level 3	2,000 shoes	990 kits	10%

- Mix & Matches are permitted between similar parts only – you cannot combine EX part numbers and KT part numbers.
- Single shipments ONLY.
- Purchase Orders must have one ship-to location. POs cannot be broken apart for scheduled shipments or drop-shipments to multiple locations.
- Orders eligible for FASTBrake™ program.

Bendix® Remanufactured Brake Shoes. Outstanding performance and reliable service life. Why settle for anything less?
